

Republican State Convention.

A public state convention will be held at the city of Milwaukee, in Assembly Hall of the Capitol, on Wednesday, the 20th day of August next, at 12 o'clock, for the purpose of nominating candidates for state officers to be supported by the party at the ensuing general election; and to transact any other business which may properly come before it.

As the subject of selecting delegates to the next National Convention may be entertained and acted upon by the convention, it is suggested that the people in their primary caucuses, and the district conventions, make such expression as will indicate their delegations to the state convention, the general sentiment of the state on this subject.

Each Assembly District will be entitled to two delegates in the convention.

It is recommended that district conventions for the selection of delegates be held throughout the state, on or before the 20th day of August, and that committees make early calls for that purpose; and it is especially urged that every district be duly represented in the convention.

H. A. TEEHEY, W. P. LYNN,
W. O. ROBERTS, E. L. PHILLIPS,
GEORGE MENZEL, GEORGE GASTY,
WINFIELD SMITH, GEORGE E. GRAVEY.

Chicago Grain Market.—The Tribune

of yesterday morning says—"Quite a reaction took place in breadstuffs yesterday. Under unusually light receipts, liberal shipments and a good speculative and shipping demand, corn advanced 18c per bushel, closing at 65 for No. 1 in store.

An improvement of 12c since Monday last, when it sank as low as 53c. Wheat also shared in the buoyancy. At the opening, sales of standard spring were made at 5c in store—advancing to 53 before the close—an improvement of 10 since Tuesday—and 5c since Monday.

Meanwhile, however, there is no visible improvement in corn in New York or Buffalo, and but slight advance in wheat."

Ora Kansas Letter.—Our Leavenworth correspondent sends us an interesting letter. His advice against any further emigration to the gold region this season is timely and sensible. By all means let the mines be fully proved by those now in them before any more adventurers leave to test them. This advice coincides with that of the editor of the Rocky Mountain News, who has made a personal visit to the diggings. He says—"Let no man think of going to the mines in all without considering well the matter in all its bearings, what he is losing and what there is a possibility of his gaining; the home and comforts he is leaving, and the certain privations and discomforts he must endure."

Facts respecting the results and workings of the mines will and must be published. These will give sufficient, I fear, too much encouragement; beyond these do not go."

Fire in San Francisco.—A late fire in San Francisco destroyed nearly all the buildings on Davis street, between Broadway and Vallejo, also the wharf fronting on Davis street. The loss is not stated.

A Phoenix Precation.—It is proposed that a board of canvassers be associated with Gov. Medary in canvassing the votes in Kansas on the adoption of the state constitution and the election of state officers. Sam's tuition in Ohio has eminently fitted him to graduate with the highest honors of "Democracy" in Kansas.

No Third Ticket in Ohio.—The mass convention of "Conservative Voters" which met in Cincinnati on Tuesday last, after a long session and much discussion, resolved by a very large majority not to nominate a state ticket. The Commercial of yesterday says:

"The third party movement in this state, designed to be operated in the pending campaign, died yesterday at Smith & Nixon's Hall. It died like the pig that lived in clover, "all over." The opposition politicians of various parts of the state, who have been alarmed by the formidable dissatisfaction in Hamilton county, will now, we hope, rest comfortable in their beds at night, and go cheerfully about their business by daylight."

John Cobb.—A young man of 18, was hung at Atlanta, Ga., lately, for shooting a wealthy libertine, who had seduced his sister. Cobb was convicted and sentenced last year, but the feeling in his behalf was so strong that Gov. Ellis was induced to grant him a reprieve for twelve months.

What connection has the fact that the condemned was "wealthy" with the punishment awarded to his murderer? Probably the ruined girl and her brother were poor, and in the humbler walks of life. When an "honorable" man shoots another who has violated a wife or sister, even though the offender may be his poor in social position, honor are bestowed upon the avenger of retribution. Money goes a great ways in determining the character of a crime, as well as its punishment.

Racing City Tax.—The amount of city tax voted to be raised in Racine the present year, is \$36,417.56. Of this \$10,000 is for current expenses, \$9,000 for schools, and the balance to pay judgments and bonds other than railroad bonds. No provision is made for the interest on the latter bonds. The amount of ward taxes is \$1,304.01—making a total tax of \$10,812.16.

The total aggregate value of real and personal property in the city, as returned by the assessors foots up \$2,163,761.83 this year, against \$2,119,707.86 in 1858.

Perhaps some of our readers may be interested in seeing the items embraced in the current expenses of a sister city, and contrasting them with their own. If so, they will find them in the following:

For salaries of city officers, \$1200.00
Harbor expenses including lights on pier 650.00

Roparia of bridges 500.00
Hose and cisterns for fire department 1500.00

Contingent expenses 200.00

Rent of council room 100.00

" Lock-up 50.00

Stationery, including blanks for Treasurer's tax roll, &c. 150.00

Printing 300.00

Electoral expenses including rent of rooms 150.00

Rent of pound, lot and repairs of pound 50.00

Expenses of lock up 250.00

Contingent expenses 1000.00

Total \$9200.00

Correspondence of the *Janesville Gazette*, Leavenworth, July 22, 1859.

Mr. Editor.—By this time I suppose you have full belief in Pike's Peak. The late news, which is all reliable, and which I see you have mostly published, proves beyond doubt that the eastern slope of the Rocky Mountains is rich with the precious metal. The last reports say that at least one hundred thousand dollars are in possession of the miners at and near Gregory's diggings, and will be here in the course of a couple of weeks. This, though large, I believe is not over estimated. I have seen sixteen hundred dollars myself that came in about a week ago. It was mostly shot and dust gold. An express is expected every day, when we shall have later and undoubtedly important news. But whatever it may be, marvelous or discouraging, in no event should any one think of starting for the mines before spring, and the 10th of May is early enough then. From all I can learn I judge that the Smoky Hill route has proved failure; at least those who have traveled both give the Kearney route a decided preference. The express will hereafter run on the latter. Provision trains are continually leaving, and by the time the snow is in the mountains the miners will be ready to go into winter quarters with full supply of food.

In the political world our news is of no peculiar moment. The convention is progressing along slowly with a constitution. The republicans have two-thirds of the members, and have kept control of every committee. If they are to be responsible for the constitution, they propose to take charge of its formation in the convention. Whatever instrument they frame will be accepted by the people, and at the next session of congress become an organic law.

The election under it for state officers promises to be a spirited one. Democracy, though defeated in the last contest, is hopeful and confident. It has its missionaries scattered in different parts of the territory organizing and drilling the ranks and file preparatory to the battle. But it is doomed to defeat. The republicans have strengthened wonderfully within the past few weeks, and protected by a wholesome registry law, as they will be, they will sweep the new state with five thousand majority. They have learned one thing of late, which heretofore they have suffered from; that is, the people uphold the principles of squatter sovereignty as originally promulgated.

Of course among the aspirants for official honors, there is going on a shrewd and strategical war, behind the curtains.—Parrott having faithfully served us in the house as delegate, chusing promotion to the senate. His chances are good, and if his friends make no egregious blunders, he will secure this high office. Vaughan, father of the Times editor, Lane, Robinson, Ewing and Ex-Gov. Stanton, are all anxious to be his colleague, but I doubt if either is successful. They have been too prominent in times past, and will not be able to unite the party on them, all will have some enemies who will not support them. Vaughan would make a fine senator. He is unquestionably the ablest man we have. With a polished eloquence, strong logical powers and a fund of political and general knowledge, he would grace the senate chamber with his presence; but he like the others must give way to a new man. I would like to see Parrott and Vaughan in the senate. His chances are good, and if his friends make no egregious blunders, he will secure this high office. Vaughan, father of the Times editor, Lane, Robinson, Ewing and Ex-Gov. Stanton, are all anxious to be his colleague, but I doubt if either is successful. LOCAL DEPARTMENT.

Beloit, Wis.—Not only are the people in Madison buying flour in Janesville, but Beloit has commenced purchasing here. Wednesday one of the bakers in Beloit was here making inquiries, and found that he could get a *cheaper* and *better* article than at home, and consequently ordered a quantity from the Farmer's Mills, expressing his determination to continue the trade thus commenced.

First Load of New Wheat.—The first load of new wheat in this market was raised by Messrs Cobb & Campbell, of the town of Clinton, and purchased by the Farmers' Mills at 60 cents a bushel. It is the California wheat, was cut the 15th inst., and is a bright, though not very large berry.

ALL SORTS OF PARAGRAPHS.

PROVIDENT INSURANCE COMPANIES.—Forty-five insurance companies in New York have declared their July dividends. The average is eight per cent, for six months. Ten or twelve go up to 10 per cent., several 12 and three to 15.

LOW WATER.—The water in the Illinois river is very low, above Peoria, rendering navigation impracticable at that point. A large amount of freight from above for shipment to the towns below, is daily received by raiload at Peoria.

A timber shaft recently erected over the remains of Aaron Burr, in the graveyard in Princeton, N. J., has been mutilated and broken by some persons unknown. The shaft was erected by stealth; no one knows who put it there.

On account of the stupidity of some of his deputies, the Postmaster General has found it necessary to announce that transient newspapers that happen to get mailed without being prepaid must be delivered on payment of the postage.

Hon. Wm. L. Yancey, of S. C., is preparing for the place of Senator. As the surest way of attaining this coveted post, he has made a speech in favor of re-opening the Slave Trade—declaring it as his opinion that all existing prohibitory laws are unconstitutional.

RATIFIED—Engineers have started on a survey of the Kansas Central Railroad. This road extends from Wyandotte, at the junction of the Kansas with the Missouri river, to Fort Riley. The entire distance is one hundred and fifty miles. This is the first railroad survey west of the Missouri river, and extends north and east in the great railroad chain, that shall ultimately link the states on the Pacific, to their sister states upon the Atlantic.

HARRISON, Va., is excited by the discovery of a supposed insurrectionary plot among the slaves. Ten negroes have been arrested and put in jail. The story of the plot comes from an old negro woman, who states that the negroes of the vicinity had held a convention at Shiloh-town, at which notion was distributed for poisoning their master's family, and that they were well armed, and after killing the whites intended to plunder the stores and escape to the North.

The enrollment of the Illinois State University for 1858-9 shows a total of 116 scholars during the year in attendance upon the school. Its affairs appear to be in a prosperous condition. The next term begins on the 1st of September.

In the town of Sardis, the church has generally been converted into barracks, especially for the cavalry, to shelter the horses from the drenching rains. Going to see the Cathedral of Cusco, a letter writer found a couple of hundred horses neighing in the nave and choir.

On Thursday, the 11th, Jack Cunningham, who was attending a moving or racing meeting at Round Prairie, in the upper part of Edwards county, Id., got before the judge for the purpose of fixing something about the neckline, when the horse started and caught the unfortunate man, cutting both legs off entirely. He died in a very short time from loss of blood.

The editor of the Paducah Herald has been shown some specimens of white blackberries, which grow in large quantities in Marshall county, Ky. They are blackberries in everything except color.

THE CENTRAL PARK, New York.—The cost of this park is set down at \$5,400,000. To make up this amount the adjoining property is taxed at \$1,000,000, and the balance in Central Park stock, issued by the city and redeemable in 30 years.

A Family of Mortals.—The Rev. William Williams was for fifty-six years pastor in Northampton, N. H. His son Solomon was for twenty years pastor in Lebanon. Ephraim, the son of Lebanon, was for more than fifty years pastor in East Hartford; and Solomon, the son of Ephraim, preached in Northampton for upwards of fifty years. Here are father, son, grandson and great-grandson, each pastor for upwards of fifty years of their respective churches, and two of them of the same church.

RAISIN PLATEAUES.—The farmers of Knob Hill county, Kentucky, have recently taken to cultivating blackberries. Their market is Cincinnati. With scarcely any labor they find that ground thus planted brings in a larger income than the same space planted to wheat, when the latter crop brings ninety cents per bushel.

USE OF BALLOONS IN WAR.—The London Times correspondent at the head quarters of the allies, writes under date of July 6th:

"As the French have established a regular corps of balloons, which is under the intelligent direction of the famous aeronaut, Goddard, the fortresses of Peschiera and Verona are closely watched so that we are able to know what is going on within their limits.

By yesterday's telegram the balloon of M. Goddard could be seen over Peschiera, much to the amazement of our gay soldiers. At six p.m. the aerial reconnaissance was over, and the balloon having safely descended in the vicinity of Castel Nuovo, Goddard and two officers of the French staff, who were his companions, hastened to report that about seventy men had been captured by the Austrians at the Dogana di Peschiera.

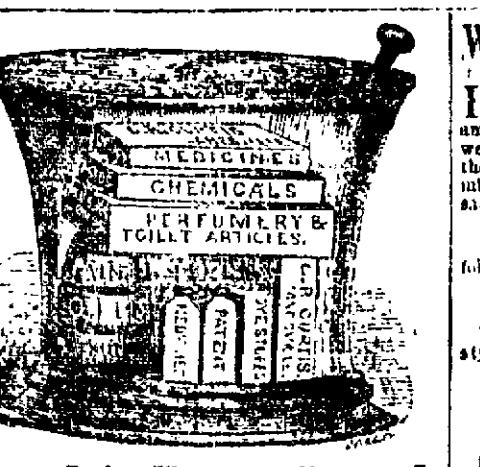

A party of Zouaves were soon despatched in that direction, and in a few hours afterwards captured the fort and its garrison in our camp. The oxen were not kept, as the owners went to the emperor and told him the animals had been stolen the night before by a party of Zouaves. His Majesty soon ordered them to be restored to the proprietors.

SHEEP SLAUGHTER.—A flock of 50 sheep belonging to A. J. Burns, Wayne county, Ohio, were killed by lightning while gathered beneath a tree during a storm.

MARRIED.—In Eliz. July 25th, by Rev. H. C. Eaton, Mr. and Mrs. John G. Jones, of Lyons, Iowa, to Miss Mary F. Jones, of Janesville.

Four Houses to Rent, within 5 minutes of Post Office, FOR \$125.00, Three farms near the city, O. B. WOODBURY, Jane 15th, 1859.

NEWSPAPER ARCHIVE.

People's Drug Store!

West Milwaukee St., Janesville, Wis.

G. R. Curtis,

General Dealer in

Foreign and American Druggs, MEDICINES, CHEMICALS, PAINTS, OILS, and Dyes, etc.

WE have just received from the eastern markets, a full supply of all articles connected with the general Drug trade, which have been selected with care, and are bought at the lowest prices. Goods are received in every variety, and we are enabled to offer the best prices.

Low Water.—The water in the Illinois river is very low, above Peoria, rendering navigation impracticable at that point. A large amount of freight from above for shipment to the towns below, is daily received by raiload at Peoria.

A timber shaft recently erected over the remains of Aaron Burr, in the graveyard in Princeton, N. J., has been mutilated and broken by some persons unknown. The shaft was erected by stealth; no one knows who put it there.

This is the first railroad survey west of the Missouri river, and extends north and east in the great railroad chain, that shall ultimately link the states on the Pacific, to their sister states upon the Atlantic.

THE CENTRAL PARK, New York.—The cost of this park is set down at \$5,400,000. To make up this amount the adjoining property is taxed at \$1,000,000, and the balance in Central Park stock, issued by the city and redeemable in 30 years.

A Family of Mortals.—The Rev. William Williams was for fifty-six years pastor in Northampton, N. H. His son Solomon was for twenty years pastor in Lebanon. Ephraim, the son of Lebanon, was for more than fifty years pastor in East Hartford; and Solomon, the son of Ephraim, preached in Northampton for upwards of fifty years. Here are father, son, grandson and great-grandson, each pastor for upwards of fifty years of their respective churches, and two of them of the same church.

RAISIN PLATEAUES.—The farmers of Knob Hill county, Kentucky, have recently taken to cultivating blackberries. Their market is Cincinnati. With scarcely any labor they find that ground thus planted brings in a larger income than the same space planted to wheat, when the latter crop brings ninety cents per bushel.

USE OF BALLOONS IN WAR.—The London Times correspondent at the head quarters of the allies, writes under date of July 6th:

"As the French have established a regular corps of balloons, which is under the intelligent direction of the famous aeronaut, Goddard, the fortresses of Peschiera and Verona are closely watched so that we are able to know what is going on within their limits.

By yesterday's telegram the balloon of M. Goddard could be seen over Peschiera, much to the amazement of our gay soldiers. At six p.m. the aerial reconnaissance was over, and the balloon having safely descended in the vicinity of Castel Nuovo, Goddard and two officers of the French staff, who were his companions, hastened to report that about seventy men had been captured by the Austrians at the Dogana di Peschiera.

A party of Zouaves were soon despatched in that direction, and in a few hours afterwards captured the fort and its garrison in our camp. The oxen were not kept, as the owners went to the emperor and told him the animals had been stolen the night before by a party of Zouaves. His Majesty soon ordered them to be restored to the proprietors.

SHEEP SLAUGHTER.—A flock of 50 sheep belonging to A. J. Burns, Wayne county, Ohio, were killed by lightning while gathered beneath a tree during a storm.

MARRIED.—In Eliz. July 25th, by Rev. H. C. Eaton, Mr. and Mrs. John G. Jones, of Lyons, Iowa, to Miss Mary F. Jones, of Janesville.

Four Houses to Rent, within 5 minutes of Post Office, FOR \$125.00, Three farms near the city, O. B. WOODBURY, Jane 15th, 1859.

CREAT SUCCESS!

OF THE
ATLANTIC TELEGRAPH,

C. R. MILK'S
Improved Cement Roofing!!

The Subscriber wishes to inform the citizens of Janesville and vicinity, that he is engaged in putting on the above roofing, which is a patented improvement on all Mason or Oungen tile roofs used and it is warranted to be equal to any other roof ever put on the public. It makes a light, handsome and durable roof, perfectly safe and water proof, and is not (to the West's) Russell's and other patents) liable to crack or split, and is easily applied, covered, sealed and warranted lighter than paper.

References given as to the truth of the above statements. Samples and certificates shown, calling upon the subscriber at the store of Lawrence & Milner, 11th and Main Streets, Janesville, Wis., August 23, 1859. GIO. A. YOUNG.

P. B. Town and County rights for sale for the state of Wisconsin, except the counties of Dane and Milwaukee.

andrews

LIGHT! LIGHT! LIGHT!

KEROSENE OIL,

Giving an Intense Light at a

Cost of One Cent an Hour.

NOT EXPLOSIVE.

The above Oil and Lamp can be obtained at the

Empire Drug Store.

The public are invited to call and look at the article.

It only has to be tried to be believed.

TALMADGE & COLLINS,

Manufacturer's Agents.

RUSSEL'S
Patent Mastic Roofing.

We are now prepared to put on the above Mastic Roofing, which is a Patent Improvement, which is entirely different from any ever before introduced into this city or county. The fact of making the

Canvas perfectly water-proof

by saturating it with oil upon the roof, com-
mends itself to the common sense of every person.

The roof when finished, is equal, in point of beauty,

More Durable Than Tin,

and is the only Cement Roofing now in use.

That will Stand the Test of the Weather,

Both Warm and Cold,

without being affected in the least.

Old roofs of slate repaired, or covered and made

perfectly water-tight.

Bought on Main Street, just above P. Myers' Packing House, where material and samples may be examined at any time.

P. E. Town and County rights for sale by A. N. Wright, at the Empire Drug Store, Janesville.

Aug. 19, 1859.

100,000 Lbs. Wool Wanted

AT THE

JANESVILLE WOOLEN

F A C T O R Y.

HAVING put their machinery in perfect order, the

subscribers are now ready to manufacture wool

Cassimeres, Satinets, Tweeds, Flannels,

STOCKING YARN, &c.

on the most reasonable terms. We shall make our

goods in the most substantial manner, and will war-

rant them to give satisfaction.

We shall make Black,

Brown, White, Red, Mixed, and

Sted Mixed, Satinet, White, Mixed, Red and

Checked Wools; also, various kinds of Stocking

Yarn, such as White, Red, Mixed, Clouted, &c.

We will pay the highest price for your wool at a reasonable price, as you may prefer.

Custom Carding!

We are putting our Custom Carding Machine into

the best possible order, and are determined to do the

best work ever done in the west and would recommend

farmers to have their wool well cleaned at home or our factory. Never despair in cleaning wool, as we shall keep a good supply of Mixed and White Wool for sale at fair prices.

Cloth Dressing!

We shall attend promptly to this branch, also to col-

oring old garments, Shawls, &c. All articles washed

on our hands.

Those who send wool to be carded, manufactured or exchanged for cloth by railroad will please

write us what they want and they may rely on

having their businesses satisfactorily.

We have al-

so a large stock of Cigars, Cigars & Co.,

of Beloit, West side of river, and we will be

leaving near or doing business at that place, which we will attend to according to directions.

WANTED!

In exchange for cloth and yarn—Wool, Soap

Wood, Pease, old rags, and small kinds of grain, for which the lowest price will be allowed.

Please write us.

J. A. WHEELER & SONS,

Janesville, March 23, 1859.

Last Call.

All persons indebted to the subscribers are re-

quested to settle with them without delay and save

cost. Our books are open to all.
